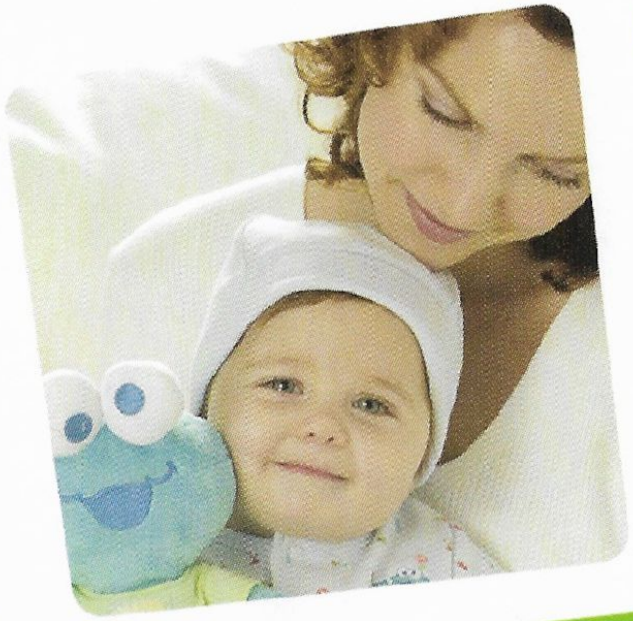
View the DVD With Your Child and M

Children learn best through interactions with their loved ones. Sharing fun, engaging experiences builds a close bond between you and your child. View this DVD with your child and see how the babies and their caregivers interact with one another during their daily routines. While routines may vary from family to family, all offer rich opportunities for bonding and provide some of the best learning experiences for young children. Daily schedules help children feel safe and secure as they become better able to predict what will happen next.



Make the most of everyday moments by talking to your child about what you are doing together or create your own special song to help your child move from one activity to another. Sing together, dance together, play, play, play!
